## DETAILED ACTION

### *Election/Restriction*

1. Claims 9-22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 6.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. **Claims 1-6 and 8** are rejected under 35 U.S.C. 102(b) as being anticipated by Porter, et al. The referenced patent discloses an insertable medical device having a protective surface coating, the coating comprising a polymer selected from a group consisting of thermoplastic polymers and thermosetting polymers and the coating being noncontinuous on the medical device. For the record, the examiner's interpretation of the cited reference concludes that in view of the noncontinuous surfaces shown in figures 2-3(c), the polymeric layer of biocompatible material applied to said surfaces must inherently result in a noncontinuous layer.

*Allowable Subject Matter*

4. Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Mendez whose telephone number is (703) 308-2221.
